

VENTURA

CONDOMINIUMS

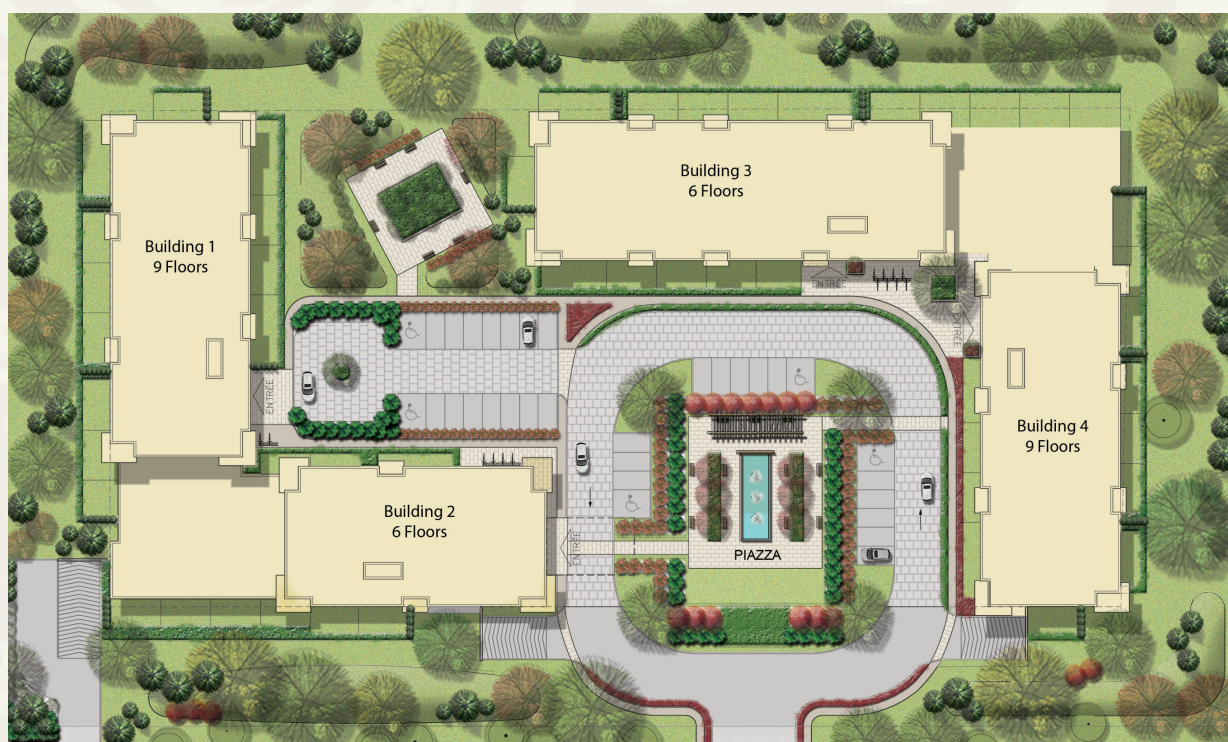

Ventura Condos' developers have been involved in construction for over 30 years. Within the residential sector, they have built and renovated well over 1,000 units. The developers of the Ventura condo project have mandated Construction Triad- APG Inc. with its execution. Since its inception, Triad has successfully completed several hundred million dollars' worth of construction.

The developers have gone to great lengths to avoid creating four identical, cookie cutter buildings and have opted instead to create a development that integrates various architectural designs and lots of greenery. Green space is one of the luxuries of living in the West Island. The phases will surround a large courtyard and will encompass extensive landscaping and garden areas.
